PUREZZA™

PREMIUM WATER

Eco-friendly Bottle Range for Hospitality

Fusing superior quality with elegant simplicity

Ourexquisite andunique range of glass bottles has beenmeticulously designed withthe busy hospitality environment in mind. In both function and form, our bottles provide the ultimate in hygiene requirements whilst simultaneously elevating the user experience for both the venue and the customer.

Hygiene Usability Sustainability

Whilststunning aestheticsareimportant,hygieneandusability were also key characteristics when engineering the serving bottles.

From the wider bottle mouth, to the shape of the neck and shoulders, to the glass weight – each element has been tailored for improving water flow, cleanability, speed of refill and ergonomics.

- The tapering base of the vessels facilitates ergonomically superior gripping and optimal pouring.
- At under 28cm, the dimensions of the bottle provide the added advantage of fitting in standard 30cm glass washers
- The bottles and caps are reusable, allowing the venue to replace expensive pre-packaged bottled water with an environmentally-friendly solution.
- The thick glass construction and weighted base add strength and stability to the bottle.
- Sparkling and still variants available, in sizes of 750ml and 350ml.
- Compliant with TEC 7 standards for manufacture and use of Carbonated Beverage Bottles
