

PUREZZA™
PREMIUM WATER

Classe

Premium solution. High capacity.
Strong purification.

The Classe is a robust, reliable and sophisticated dispenser providing high volume, purified ice-cold still and sparkling water. The unit has been designed with HoReCa environments in mind, where high output, high flow and hygiene are essential.

KEY TECHNOLOGY

Performance filtration

When attached to our recommended, high capacity professional grade filters, the dispenser addresses colour, taste, odour, for great tasting, crystal-clear water.

Firewall purification

High flow Firewall UVC purification thoroughly purifies the water up to the point of dispense, for micro-biologically safe water. Guaranteed to remove up to 99.9999% bacteria, 99.99% viruses and 99.9% cysts.

Ice Bath cooling technology

The Ice Bath water cooling system delivers high volumes of ice-cold water, catering for environments where such a need is paramount.

BioCote® antimicrobial protection

The bottle holders and floater mechanism are protected by BioCote® antimicrobial technology proven effective against all common microbes including bacteria, mould and fungi.

R600a gas

Eco-sustainable refrigeration using R600 natural gas, for low environmental impact.

Features

- ▶ NSF 55 Class A and NSF P231 certified Firewall, patented UVC technology, deactivates most viruses, cysts and pathogenic bacteria, thoroughly purifying the water up to 99.9999%
- ▶ Firewall UV lamp monitoring system guarantees consistent standards of water purification
- ▶ Ice Bath cooling technology for abundance of highly purified still and sparkling ice-cold water

- ▶ Removable steel side plate facilitates air filter cleaning operations
- ▶ LED side panel displays filter, Firewall and Ice Bath fault indicators, as well as other system diagnostics for optimum service efficiency and peace of mind
- ▶ Programmable energy saving sleep mode to significantly reduce power consumption when the unit is not in use
- ▶ Available in countertop and freestanding versions (with optional base cabinet)

- ▶ Electronic push dispense buttons allow for continuous dispense (max 3 litres) or pre-set portion control to fill 750 ml and 1 litre size bottles. Sequential dispense (one pre-set dispense after the other from each tap) can also be set up for peak-time usage
- ▶ The ergonomic dispense area and the adjustable height drip tray are designed to accommodate various size vessels
- ▶ Clearly visible dispense nozzles and circular bottle holders allow for accurate positioning of the bottles, preventing displacement and unnecessary water spillage
- ▶ Up to 160 litres per hour

TECHNICAL SPECIFICATIONS

Types available	Countertop and freestanding (with optional base cabinet)
Dimensions	Countertop (including wheels): 401 mm (W) x 607 mm (H) x 590 mm (D) Freestanding: 401 mm (W) x 1392 mm (H) x 590 mm (D)
Dispense area height	220 mm - 314 mm (adjustable)
Weight	Countertop: Net 48 kg Base cabinet: Net 21.2 kg
Storage capacity	Ice bath: 21 litres Sparkling tank: 1 litre
Dispensing capacity	Up to 160L/h
Flow rate	2.5-3.5 litre/min
Compressor	(R600a): 220V-240V/50Hz (R134a): 110V/60Hz
Water temperature output	Cold: 3-12 °C Sparkling: 3-12 °C
Cooling system	Double-coil ice bank
Tested and certified	  The HORECA Firewall is certified by IAPMO R&T to NSF/ANSI 55 Class A, NSF P231, and US EPA Guide Standard and Protocol for Testing Microbiological Water Purifiers, and NSF 372 for lead free compliance.
